Escape in Launch With \$2,-

Yeggmen who blew the safe in the postoffice at Council, Ark., some time between midnight and 6 o'clock Wednesday morning, escaped with loot valued at \$2,500, after sprinkling a case of snuff over their tracks to thwart bloodhounds following the trail. Nitroglycer-in was used to rip the strong box. The safe blowers are believed to be headed toward Momphis in a gasoline launch. A police guard has been ast along the river front, in an effort to head off and capture the yeggs.

The loot consisted of \$1,200 in cash, \$250 in stanipa and L'herty bonds valued at \$700, as well as all of the resistered mail which was in the postoffice.

The police were notified of the robbery Wednesday morning by Lawrence

GRANT JITNEY FRANCHISES Mayor Issues Plain Statement To Citizens As To Attitude of

Mayor Paine Wednesday issued the first of a series of statements dealing with the pending question of lares to be charged on street cars, and the absolute injustice, both of the proposed action of the state utilities commission in allowing an increase in the fare from 6 to 7 cents and in fiving a rate based on a valuation will be set delicated. cents, and in fixing a rate based on a valuation millious of dollars in excess of the actual value of the Memphia Street Railway company'

properties.

Jeroms E. Richards, poil tax collector for Shelby county, sought an opinion on the rights of the poil tax collector from W. Tyler McLain, of the law firm of McLain & Bejach. He received it Wednerday.

Mr. McLain informed Mr. Richards that under the law any employer who sought to keep from the poil tax collector the information he sought, was guilty of a misdemeanor, and punishable under the statute covering this offense.

"Upon assuming office Jan. 1, 1926, the city commission of Memphis found that an application was pending before the state public utilities commission by the Memphis Street Railway company, requesting an increase in the fare, Accordingly, the city commission gave the matter careful consideration, held numerous protracted conferences with W. L. Armstrong, city attorney; E. B. Klewer, assistant city attorney; and Ross W. Harris, of Madison, Wis., street railway engineer, who represented the city. Mr. Harris explained in considerable detail the question of street car operation, management, cost and returns. In addition Mr. Armstrong and Mr. Klewer Although March 6 had been set by "Chief" Richards as the time for clapping on the garnishment clause of the poil tax act, he determined again Wednesday to extend the time to a date later in March, to be fixed Thursday afternoon. Putnam Dye, secretary of the Brotherhood of Railway Trainmen, asked Mr. Richards to hold off until a later date, so that railroad men might get their first month's pay under private ownership, before he proceeded to collect poil taxes by garnishment. Mr. Richards agreed, and with Mr. Dye and other railroad men, he will fix the next date. It probably will be in the neighborhood of April 3. addition Mr. Armstrong and Mr. Klewer and Horace Johnson, commissioner of nutilic utilities, attended sessions of the state public utilities commission in Nashville.

Tuesday. What Rate Base Is.

"In fixing a fare to be charged a number of questions should be considered. The fare should be sufficient to pay operating expenses and taxes, to provide for the upkeep of the property in the way of renewals and replacements, and to give a fair return to the owners of the company.

"In order to calculate what this 'fair return' should be, it is necessary to determine the basis on which the return should be allowed. In other words, some definite amount must be determined as being the amount on which the owners are entitled to a return.

"Inasmuch as the stocks and bonds of the Memphis Street raflway so not represent the actual value of the investment, it does not follow that the company is entitled to a return on the full amount of these stocks and bonds. In fact, it is not disputed that \$2.500 of the stock represents no real money investment, but is, in street parlance, pure water.

"It was therefore decided by the state public utilities commission several months ago, to have made a physical appraisal, or valuation, of the street. **BINGHAMTON TANK** Sale of the Binghamton water tank, which was being operated before the suburb became a part of Memphis, was

Prices will be sought from manufacturers at once. Reports were received from department heads and the commissioners confidently predicted that they would be able to meet the demands of the public for water next summer. For some time the probability of a water shortage was discussed.

Administration Showing That He 1s Determined To Use Every Legal Means In Battle.

In speaking of the intention of the city, Mayor Paine said plainly Wednesday that the administration, if the seven-cent fare is ordered, as he believes it will be, will go into the courts and in every legitimate way attempt to have the order of the state utilities commission set aside.
